

“When I had my heart attack,  
I chose Northwest Health System.”

— Mike Mayer, heart attack survivor

Mike Mayer has always loved sailing. And when a blocked artery threatened his life, he set a course for one place. “I told the paramedics to take me to Northwest.” The moment he arrived, the chest pain team went to work, diagnosing his condition and putting in a stent to open the blockage. “The concern for my well-being was overwhelming.” Today, Mike is back with his family and back on the lake. “Thanks to Northwest Health System, life is smooth sailing again.” To find a fellowship-trained cardiologist, call 1-800-734-2024.
