

## Faster Diagnosis and Treatment

The collaborative efforts of Northwest Medical Center – Bentonville and Northwest Medical Center – Springdale within the Heart Hospital Network provide cardiovascular services comparable to those found at some of the most prestigious heart and vascular centers in the Arkansas-Oklahoma-Missouri region and the nation.

The Heart Hospital Network’s model offers a more seamless delivery of care that may result in improved outcomes for patients. Implementing advanced technology, increased efficiencies and cardiovascular expertise helps ensure that patients and families receive safe, quality care in the timeliest manner possible.

The network’s capabilities include:

- Accredited Chest Pain Centers at both Northwest Medical Center – Bentonville and Northwest Medical Center – Springdale
- Enhanced testing, reporting and diagnoses via sophisticated CVIS (cardiovascular information system).
- Sophisticated cardiac imaging systems and minimally invasive surgical technology
- Specially trained staff, including Registered Cardiovascular Invasive Specialists. The Northwest Health cath lab team members comprise a significant percentage of Arkansas’ certified specialists
- Comprehensive cardiac outreach, education and rehabilitation services to restore patients’ quality of life post-cardiac event
- A variety of education and risk assessments are available under the Health Resources section of [www.northwesthealth.com/hearthospital](http://www.northwesthealth.com/hearthospital)

As interventional cardiologists, we choose to partner with Northwest Health System’s Heart Hospital Network – home of Northwest Arkansas’ first Accredited Chest Pain Center.

The Heart Hospital Network’s commitment to excellence in everything from advanced cardiovascular technology to personalized and compassionate patient care makes the difference!

Members of the Medical Staff at Northwest Health System

# Your Heart. Our Life’s Work.

## Your heart. Our life's work.

Northwest Cardiology is committed to excellence in everything from advanced technology to personalized and compassionate patient care. That's why, as cardiac specialists, we put our patients' care first. It is also why we choose to practice at Northwest Health System's Heart Hospital Network.

As experienced interventional cardiologists, we provide comprehensive services that address simple to complex heart conditions that may be adversely affecting the quality of life of our patients. We work closely with your primary care physician and, in some cases, specialists to diagnose, treat and manage heart and vascular symptoms and disease.

We also stress the importance of preventive care, especially for those with family history or pre-indicators of heart disease. Combining our years of experience and training with a well-trained staff and an exceptional healthcare facility, we can provide the diagnostic and treatment options that you deserve. We also staff the Cath Labs of Northwest Health System in Bentonville and Springdale.

**Remember, if you experience chest pain, call 9-1-1 immediately.**

If you should ever suffer a cardiac event, our goal is to help you recover and get back to your life as quickly and as easily as possible.

We accept most insurance plans, Medicare and Medicaid. For coverage clarification, please contact your insurance plan.

**You can trust your heart to Northwest Cardiology. Our cardiologists are members of the medical staff at Northwest Health System.**

**For an appointment, call:**  
Bentonville: 479-553-2200  
Springdale: 479-750-2203

**Ahmad A. Elesber, M.D.**  
*General and Interventional Cardiologist*  
Springdale Office

**Medical School:** American University of Beirut

**Internship and Residency:** Mayo Clinic

**Fellowships:** Cardiology & Interventional Cardiology – Mayo Clinic College of Medicine

**Board Certifications:** Internal Medicine, Cardiology, Interventional Cardiology, Echocardiography, Nuclear Cardiology

Dr. Elesber is highly experienced in the diagnosis and treatment of valve problems, holes in the heart and peripheral vascular disease (PVD), and has performed more than 1,000 coronary interventions. Dr. Elesber also offers a leading-edge radial approach to heart catheterization that goes through the wrist and may mean a more comfortable experience and a quicker recovery.

**Michael Green, M.D., F.A.C.C.**  
*General and Interventional Cardiologist*  
Springdale Office

**Medical School:** University of Arkansas for Medical Sciences (UAMS)

**Internship and Residency:** University of Arkansas for Medical Sciences (UAMS)

**Fellowships:** Cardiovascular Medicine & Device Implantation, University of Oklahoma Health Sciences Center

**Medical Director:** Heart Hospital Network

In nearly 15 years of dedicated service, Dr. Green has treated thousands of Northwest Arkansas cardiac patients.

In 2010, *Arkansas Democrat Gazette* readers voted Dr. Green the "Best of the Best" Cardiologist in Northwest Arkansas.

Dr. Green implanted the state's first biventricular pacemaker, established NWA's first Congestive Heart Failure Center and was instrumental in developing the area's first Accredited Chest Pain Center at Northwest Medical Center – Springdale.

**Jose G. Loyo, M.D., F.A.C.C., F.S.C.A.I.**  
*General and Interventional Cardiologist*  
Bentonville & Siloam Springs Offices

**Medical School:** Central University of Venezuela School of Medicine with honors, first of graduating class

**Internship and Residency:** Internal Medicine and a fellowship in Cardiology at Central University of Venezuela

**Fellowships:** Cardiology & Interventional Cardiology – Deaconess Hospital, Harvard Medical School, Boston

Dr. Loyo is bilingual – English and Spanish. He is experienced in using minimally invasive techniques to treat heart conditions. With more than 15 years experience as an interventional cardiologist, Dr. Loyo has performed thousands of cardiac procedures. Previously he served as Chief of Cardiology at Sparks Regional Medical Center. Dr. Loyo also sees patients in Siloam Springs on Wednesdays from 1 – 5 p.m. and Fridays from 9 a.m. – 1 p.m. Call 479-238-1110 for appointments.

1101-1 Progress Avenue & 451 S. Holly Street • Siloam Springs

**Thomas Reinsvold, M.D., F.A.C.C.**  
*General and Interventional Cardiologist*  
Bentonville & Bella Vista Offices

**Medical School:** University of California, Los Angeles (UCLA), School of Medicine

**Internship and Residency:** Internal Medicine Residency – Cedars-Sinai Medical Center, Los Angeles, Calif.

**Fellowships:** Cardiology – UCLA – San Fernando Valley Program in Cardiology & Interventional Cardiology – Hospital of the Good Samaritan, University of Southern California, Los Angeles, Calif.

**Board Certifications:** Internal Medicine, Cardiology and Interventional Cardiology

Dr. Reinsvold has more than 20 years of experience in cardiac care. He has a strong background in using minimally invasive techniques to treat heart conditions. Previously he practiced in Joplin, Mo., where he helped develop the Freeman Heart Institute program that performed over 5,000 cath lab procedures and over 400 open heart surgeries. Dr. Reinsvold also sees patients in Bella Vista on Thursdays from 9 a.m. to Noon. Call 479-553-2200 for appointments.

1801 Forest Hills Blvd., Suite 201B • Bella Vista

**Shaun Senter, M.D., M.S.**  
*General and Interventional Cardiologist*  
(Coronary, Structural and Peripheral)

**Medical School:** Rush Medical College, Chicago, Ill.

**Internship & Residency:** Internal Medicine at Johns Hopkins Hospital, Baltimore, Md.

**Fellowship:** Cardiovascular Medicine at Cleveland Clinic, Cleveland, Ohio

**Advanced Fellowship:** Coronary, Peripheral and Structural Interventional Cardiology, William Beaumont Hospital, Royal Oak, Mich.

**Board certifications:** Cardiology, Nuclear Cardiology, Internal Medicine

Dr. Senter trained at the prestigious Johns Hopkins Hospital (Ranked #1 for the last 20 years), Cleveland Clinic (Ranked #1 in Heart and Heart Surgery since 1995) and William Beaumont (first to prove heart attacks treated with angioplasty and first in U.S. to replace heart valve through an artery in the leg). He specializes in prevention and treatment of complex heart disease, women's cardiovascular health and vascular disorders involving the arteries and veins. "My philosophy is to compassionately provide the best, most advanced care to help patients live longer, healthier lives."

Offices in Bentonville, Siloam Springs and Bella Vista
