

OBSTETRICS.

WELCOMING YOUR NEW LITTLE ONE.

Whether you are expecting your first child or an additional one, Northwest Health System's obstetrical staffs will be happy to help you welcome that new family member. We offer an impressive list of services for the expectant mother and her newborn. The commitment of our physicians, nurses, staff and administrators is to provide a warm, respectful and caring environment for all patients, which is why our obstetric services at Northwest Medical Center – Bentonville and Willow Creek Women's Hospital in Johnson continuously exceed patient expectations.

Having a baby is a momentous time in your life. Of course you want the finest care available for both you and your baby. Northwest Health System offers all that and more. We offer complete labor and delivery services that balance medical technology with a family-oriented environment. Mothers stay in specially designed birthing suites that feature a relaxed and reassuring atmosphere with the comforts of home.

Our birthing suites feature a relaxed and reassuring atmosphere with comfortable and familiar furnishings to make you feel right at home. All rooms are equipped with a sleeper sofa so family members can stay in the room with you.

Our Prenatal Education staff of registered nurses offers an extensive collection of classes, including courses on childbirth education, breastfeeding, a refresher course for experienced parents and even a sibling class.

Obstetric Services Include:

- Level I and Level II ultrasound examinations
 - Labor/delivery/recovery/postpartum suites (LDRP) at Willow Creek Women's Hospital
 - Labor/delivery/recovery rooms at Northwest Medical Center – Bentonville
 - Antenatal testing area
 - Cesarean operating suites
 - Breastfeeding consultation/education
 - Portable ultrasound and ECG monitors
 - Amniocentesis
 - Non-stress test
 - Ultrasound sonography
 - Maternal/fetal monitoring
 - Couplet care – your baby remains with you
